

PRECISION AND PERFORMANCE IN EVERY DIVERSE PRINT.

Impeccable print quality and spectacular accuracy with Epson's large format printers.

Epson's new SureColor S9130 large format printer is the next generation of high-performance signage printers, built with the latest printing technology. They feature an advanced precision media feeding system, high-performance printheads, and a range of advanced capabilities designed to handle demanding jobs reliably while keeping operational cost low.

ENGINEERED FOR good

Epson Edge Print PRO

Exceptional Print Quality

Explore enhanced printing speeds with the latest Epson technology, thanks to an improved printhead width and increased nozzle count.

Super Reliability

High-volume printing is made ultra-reliable with an advanced precision media feeding system to ensure minimal downtime.

Engineered For Convenience

Epson's solutions such as Epson Cloud Solution PORT and Epson Edge Print PRO helps with ease of use and remote management during operations.

ECO-SOLVENT PRINTER

REDUCE INK COSTS WITH BULK-INK EDITIONS

The SureColor S9130 breaks new ground in sign printing by drastically reducing ink costs. They offer fast print speeds, best-in-class high colour accuracy and lamination compatibility, along with the convenience and cost savings of bulk ink.

Innovative bulk-ink packs offer low ink cost, so you can print more at a lower ink cost per square foot. Plus, in addition to delivering longer, unattended printing, they reduce plastic waste compared to traditional cartridge systems.

Nozzle Temperature Sensor for Consistent Quality

A new temperature sensor near the ink discharge area ensures precise temperature control, maintaining consistent ink dispensing for improved colour accuracy from the first print to the last.

Enhanced White Ink Output for Faster Results

The dual white ink channel enables higher white opacity output in less time, improving efficiency while maintaining vibrant, consistent results.

Bulk-Ink Solution

With a maximum ink capacity of up to 1500ml, save time and money, reduce waste, and increase uptime for uninterrupted operation.
